customer satisfaction

"We needed to create more workspace for our interns. The partition allowed us to take an unused room and make it usable for this purpose."

David, Aerotech, Inc. - Pittsburgh, PA

"Testing and research are done at our location and we needed a solution to hide confidential testing being done. When we are not using the divider for testing, we use the whiteboard side in our conference rooms."

Evelyn, ITW Innovation Center - Glenview, IL

Portable Room Dividers

SOUND ABSORBING

Each panel is constructed using a ½" closed cell honeycomb core covered by two layers of fiberglass insulation on each side for maximum sound absorption.

TACKABLE PANELS

Tack, pin or staple items directly onto the panels.
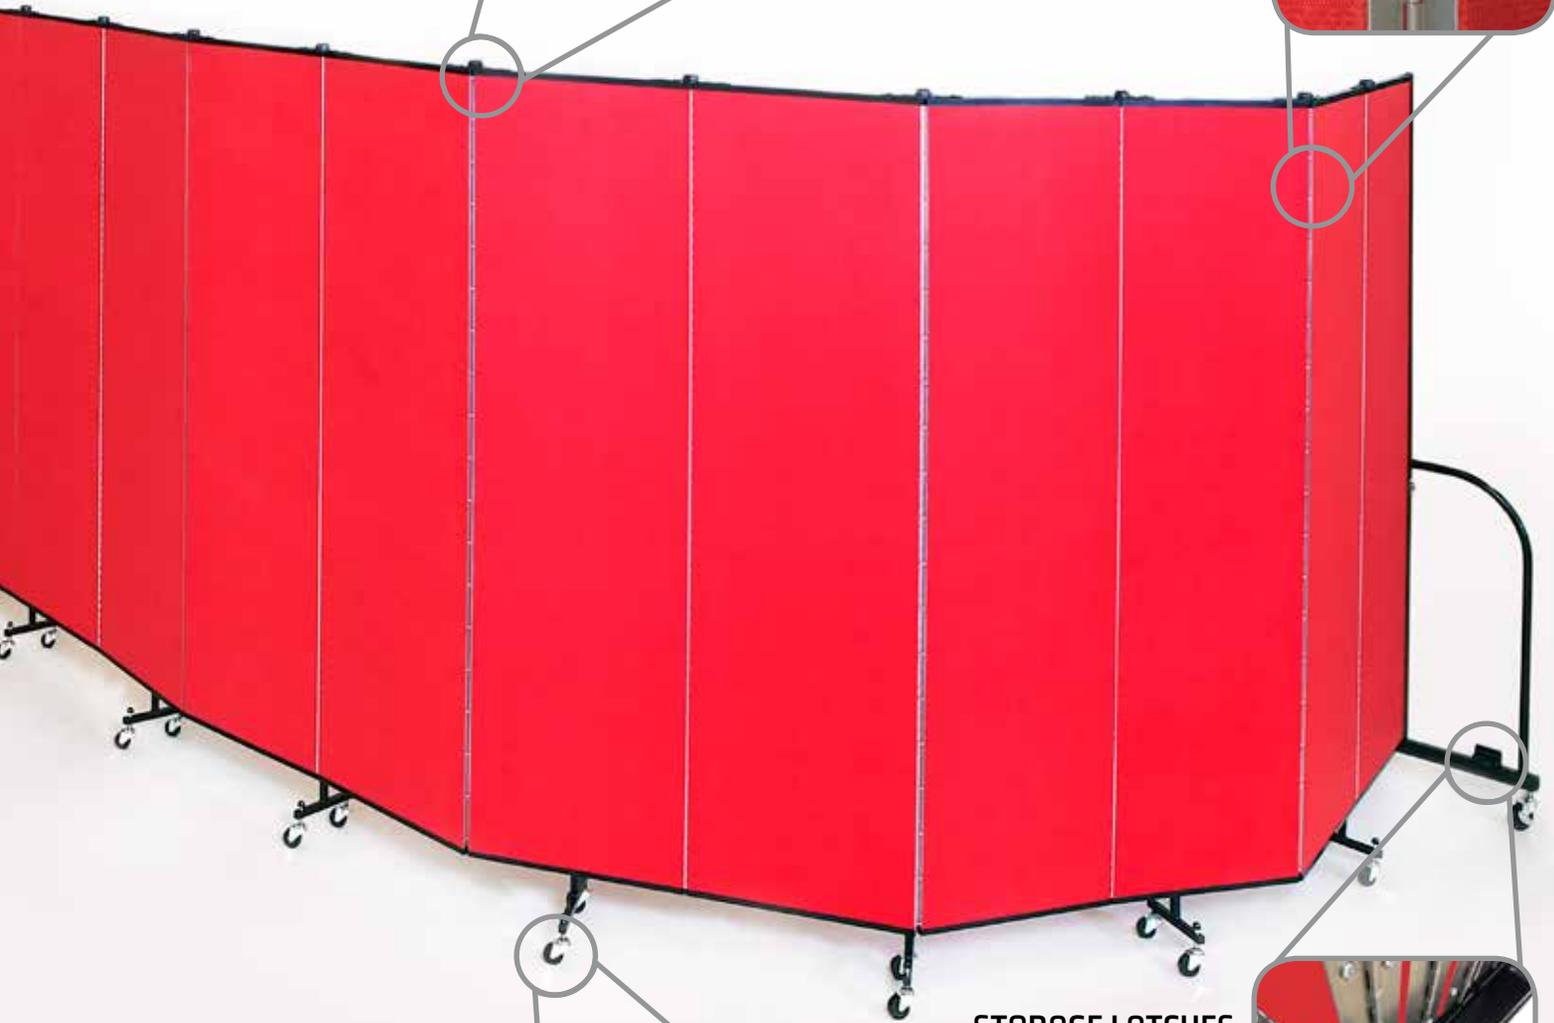

LOCKING CORNER CASTERS

Pedal activated brakes on end casters keep the divider secure and stable.

POSITION CONTROL HINGES
Molded position control hinges help the divider remain in the desired configuration.

FULL-LENGTH HINGES
A metal hinge is screwed into each panel every four inches, from top to bottom, to provide strength and stability.

STORAGE LATCHES
Locking storage latches on both ends keep the panels securely in place while moving or when storing the divider.

SELF-LEVELING CASTERS
Adjusting to uneven surfaces, self-leveling casters provide added stability.
